Each year we engage with over 1,500 children, teens, families and adults. Our programs foster confidence, competence, resilience and a deep relationship with nature in a way that is hard to achieve in more conventional learning environments.

By helping children connect to nature and teaching adults to do the same, we inspire children to respect, cherish, and care for the Earth. We are empowering the next generation of environmental stewards, problem solvers and leaders. Check out our website – www.pineproject.org – for more info.
